

SPLENDOR X

This is how confidence feels

The only
aesthetic
workstation
powered
by BLEND X™
technology

We don't just build technology,
we build confidence.

What we do changes the way people feel about themselves.

We don't just remove unwanted hair, we remove doubts and worries and
the barrier between people and what they can be.

We create, design and manufacture confidence.

This is how **confidence** feels

World first from a world leader

SPLENDOR X, introduced by Lumenis, a global leader in laser and energy-based technologies, lets you customize hair removal and skin treatments across an infinite spectrum of skin tones like never before.

BLEND X

Bilateral laser emission of Nd:YAG (1064nm) and Alexandrite (755nm) wavelengths, synchronized and adjustable proportions

Square shape spot sizes

For uniform skin coverage, eliminating overlap and hotspots.
Up to 27x27mm

Fast treatments

Large spot size and rapid repetition rate

Treatment versatility and skin solutions

Wrinkle reduction, vascular and pigmented lesions

Infinite possibilities. Ultimate versatility

SPLENDOR X empowered by BLEND X is a truly unique solid state laser system with unprecedented power, speed and coverage rate

Binary Laser Emission of Nd:YAG and Alexandrite

With BLEND X technology Alexandrite 755nm and Nd:YAG 1064nm wavelengths can be synchronized to be fire with varying proportions to tailor treatment, according to the individual's skin type, hair color and thickness allowing safe and effective treatment.

Powerful, fast and versatile SPLENDOR X treats a wide range of hair removal procedures and skin conditions such as wrinkle reduction, vascular and pigmented lesions.

Extreme power, unprecedented speed

The SPLENDOR X is very powerful, at 250W output power it provides rapid coverage rate combining high fluence, large spot size and high repetition rate.

BLEND X technology targets the hair follicle in two depths for greater efficacy

Revolutionary square spot size

The revolutionary square shape laser spot provides faster and uniform coverage of the treatment area, with larger spots penetrating deeper. no overlap, no burns and no retouching missed areas.

Precision coverage is made even simpler with unique UV Skin Marking providing an easy grid matrix to follow.

Traditional round spot sizes result in inconsistent coverage affecting efficacy and safety.

Unique and unmatched

An advanced ergonomic handpiece integrates a plume evacuator and cooled air for added comfort at the same time

Built-in plume evacuator

An integrated plume evacuator and HEPA filter provide a smoke free environment and ensure the well-being of the treatment provider and the customer.

DCS (Dual Cooling System)

Combined Cryo-Touch and Cryo-Air. The Cryo Tip is designed to deliver cold air exactly over the laser beam treatment area. exactly above the treatment area, actively removing heat from tissues.

Spheric connector

Makes the handpiece easier to move without fighting against a rigid connection that turns the hose into a lever.

Interchangeable lenses
for each spot size

SPLENDOR X ensures a greater return on investment in a shorter time due to a longer lamp life, no consumables and remote service capabilities

Self-Lamp-Replacement™

Replace the laser flash lamp yourself in just seconds, no need for a technician without any system downtime

Remote Service Connectivity

Advanced service software allows certified engineers to trouble shoot, calibrate and upgrade the system remotely increasing uptime.

Confidence in your clinical outcomes

Prof. Leonardo Marini, M.D.
Skin Doctors' Center
Trieste, Italy

"I am very impressed with the efficacy, speed and safety, of the SPLENDOR X on all skin types, for hair removal, photocoagulation of vascular lesions. It addresses dark skin types, as well as fine hairs, with unmatched results. The speed of treatment is unbelievable and patients are getting impressive long-term results in only four sessions. Since there are no consumables, the return on investment is rapid."

Mary P. Lupo, M.D.
Dermatologist, USA

"SPLENDOR X is a quantum leap in laser hair removal technology above all other platforms in the space."
